## OUR HISTORY

The Town of Gabbs was founded in 1941, as a company town for Basic Magnesium, Inc. (BMI), who operated a magnesium mine within the town limits. The magnesium was used for the World War II effort to make plane parts lighter than aluminum. Today, Premier Magnesia, LLC, operates the mine and employs over 90 employees, with many years of production left in the mine. The mine in Gabbs is the oldest, continuously operated mine in Nevada.

The Town of Gabbs boasts a k-12 public school, grocery, café, bar, gas station, motel, propane utility company, library, a volunteer fire and ambulance service, VFW and Ladies Auxiliary, Senior center, Women's Club, LDS Church, Community Church, Community swimming pool, homes and a progressive mine.

Gabbs has a population of 269. The median age of the population is 50.1 years, with 81.0 percent (218) age 16 and older and 20.8 percent (56) age 65 and older (2010 Census, Gabbs CDP).

## EDUCATION

Public education from pre-kindergarten through twelfth grade is provided to Town residents through the Nye County School District (NCS), and community college classes are offered by GBC through interactive video from the Gabbs School.
